

Identification of studies via databases and registers

Identification

Registrations identified from:

OSF (n = 17.729)

- Manually opened (n = 8.008)
- Automatically opened (n = 9.721)

Screening

Registrations screened

(n = 315):

- Manually opened (n = 169)
- Automatically opened (n = 146)

Registrations excluded*

(n = 139):

Withdrawn (n = 6):

- Manually opened (n = 1)
- Automatically opened (n = 5)

No research study (n = 71):

- Manually opened (n = 22)
- Automatically opened (n = 49)

No unique study (n = 18):

- Manually opened (n = 13)
- Automatically opened (n = 5)

No pre-registration (n = 47):

- Manually opened (n = 30)
- Automatically opened (n = 17)

Registered report (n = 16):

- Manually opened (n = 13)
- Automatically opened (n = 3)

Replication project (n = 13):

- Manually opened (n = 13)
- Automatically opened (n = 0)

Registrations included before emails

(n = 176):

- Manually opened (n = 91)
- Automatically opened (n = 85)

Registrations excluded after emails

(n = 7):

No research study (n = 5):

- Manually opened (n = 1)
- Automatically opened (n = 4)

No unique study (n = 1):

- Manually opened (n = 0)
- Automatically opened (n = 1)

Replication project (n = 1):

- Manually opened (n = 1)
- Automatically opened (n = 0)

Included

Registrations included

(n = 169):

- Manually opened (n = 89)
- Automatically opened (n = 80)
